

DECLARATION OF CONFORMITY

According to the
Low Voltage Directive 2006/95/EG. EMC Directive 2004/108/EG.
MDD 93/42-EGG.
including amendments by the CE marking Directive 93/68/EEC.
2002/95/EG RoHS. 2002/96/EG WEEE.

Type of equipment: **Induction Loop Amplifier**
Type designation / model: **UniVox® PLS-700**

Manufacturer: Bo EDIN AB
Stockby Hantverksby 3
SE-181 75 LIDINGÖ

The following harmonised European standards have been applied

| <u>Standards</u> | <u>Regarding</u> |
|------------------|---|
| EN 61000-6-1 | EMC-Emission, Generic class: residential, commercial and light industry |
| EN 61000-6-3 | EMC-Immunity, Generic class: residential, commercial and light industry |
| EN 60065 | Safety requirements for mains operated electronic and related apparatus for household and similar general use |
| IEC 60601-1-1 | Medical electrical systems |

The following international standards have been applied

| <u>Standards</u> | <u>Regarding</u> |
|------------------|---|
| IEC 60118-4 | Magnetic field strength in Audio-Frequency Induction Loops. |

- The product complies with the above standard up to 650 m², free field

Remark: The product complies with the above standard providing: the amplifier is adjusted and connected according to the instruction manual; there is no self oscillation in the installed system, and no other uncontrolled influence of the magnetic field.

Additional information

- We have an internal production control system that ensures compliance between the manufactured products and the technical documentation.
- Each unit is individually tested and adjusted to ensure compliance of the technical documentation.
- Output signal may be distorted due to high frequency external signals.
- The product complies with the harmonised EMC standards listed above.
- The product is CE marked in 2004.

As manufacturer we declare under our sole responsibility that the equipment follows the provisions of the Directives and Standards stated above.

January, 2009
